##### *LEGO Mindstorm in Motion*

New from LEGO® Education is a fantastic program with open-ended, problem-solving activities that make learning STEM (science, technology, engineering, and mathematics) engaging and fun. The structure of the activities mimics the engineering design process used by scientists and engineers in many industries. Each project starts with a design brief explaining the challenge, uses videos of robots in action to make real-world connections, and culminates in a final project that can be shared and presented. Throughout the process, students gain and use knowledge of science, technology, and mathematics as they engineer a solution. This structure is designed to help students develop the 21st-century, creative-thinking, problem-solving, teamwork, and communication skills required for success in school and beyond. Class is held at the old family center which is located next to the playground.

Big Reef Swim School | Youth

Children who know how to swim not only can save themselves when in water, but are far more equipped to recognize the dangers of water. Indy Parks Swim School Youth swim lessons are designed for children 5 and over and will cover a broad range of core swimming skills helping students become proficient in the four basic strokes of freestyle, backstroke, breaststroke and butterfly as well as basic water safety. The 1:6 ratio allows students to move through each level at their own pace while building endurance in the water and working on stroke perfection and technique. Children should be ready for stroke development and be able to sit through a 45 minute class.

#### Futsal

Futsal is played between two teams of six players, one of whom is the goal keeper. Unlike some other forms of indoor soccer, the game is played on a hard court surface delimited by lines; walls or boards are not used. Futsal is also played with a ball that has less bounce than a regulation soccer ball.

Hoosier Women in Art

The second annual Hoosier Women in Art Exhibition will be on display in our main gallery. Local women will share their talents, stories, and a piece of themselves with a focus on the theme "modernity." French art critic Charles Baudelaire is credited with creating the term "modernity" to speak to a feeling or an ephemeral experience of life that is present in an urban metropolis, and the space in which art is tasked with capturing that experience. Artworks will include ceramics, paintings, textile arts and other mediums.

Theatre and Storytelling - Events

Lerner & Loewe's CAMELOT

The legend of King Arthur has enchanted generation after generation. His pure, perfect kingdom was shattered because of the tragic passion between Queen Guenevere and the Round Table's bravest knight, Sir Lancelot. In 1960 Alan Jay Lerner adapted the story for Broadway with stuning music by Frederick Loewe. The irresistible story and the gorgeous score have made this a classic musical. Presented by the Garfield Shakespeare Company.

*Everyone's a Critic: What is BAD Art?*

Imagine Van Gogh's "Starry Night" hanging on the walls of the Museum of Bad Art. If MOBA had existed in Van Gogh's day, it very well might have been on display. During his lifetime, Vincent Van Gogh's paintings were criticized for the very unique, bold, and expressive style of painting that makes them so inspiring and valued today. Despite criticism, he continued to paint in his own style. Van Gogh, like many BAD artists, dared to be different. Join us in the Arts for All room to learn about BAD art. Then dare to be different by defying the rules, taking some risks, and challenging yourself to create your own BAD art. We will proudly hang your masterpiece in our gallery for all to admire. Just don't throw it away! Who knows what it might be worth someday! After all, is there even such a thing as BAD art?

Preschool Swim Lessons

Swimming builds self-esteem when a child performs a skill that was once impossible to them! The Indy Parks Swim School Preschool swim lessons are designed for children 3 years to 6 years and will concentrate on becoming more comfortable in the water and strengthen students' ability to perform skills independently. Skills taught at this level will include proper front and back floating, kicking, gliding, treading water and successfully performing front crawl. Skills are age appropriate with a 1:4 ratio and will prepare the child for success in youth level classes. Children must be potty-trained and be able to take instruction without parental supervision.

Thatcher Park

Nature  
Outdoor Adventures  
Hoosier Canoe Club

Thatcher Pool is a great place for kids and grownups to try kayaking in a safe, warm environment. Volunteers from the Hoosier Canoe Club will encourage you try their boats and teach you basic paddle skills and safety tips. Every first Wednesday of each month, Kids have the opportunity to learn kayaking techniques for FREE. Must register two weeks in advance. Paddlers who catch the bug can get advice about boats and gear, learn how to roll or self-rescue a kayak and join the HCC on paddling trips across Indiana and beyond. Please contact Thatcher Park to reserve a date at the pool. For more information call Jordan Ross 317-460-7000 (evenings).
